Our Community

Georgetown, Ky., with its population of 20,000 is a community with rural beauty and a proud heritage.

Strategically located at the crossroads of I-64 (E-W) and I-75 (N-S), Georgetown is minutes away from Lexington, the second largest city in Kentucky.

The Georgetown/Lexington area provides a diverse landscape, a moderate climate, affordable housing, safe neighborhoods, access to a wide range of religious opportunities and excellent schools. Attractions include:

- University of Kentucky sports
- Lexington Legends, minor league baseball
- Lexington Horsemen, indoor arena football
- Cincinnati Bengals' NFL training camp
- Red River Gorge, Fort Boonesborough and The Kentucky Horse Park
- Keeneland Thoroughbred horse racing & Red Mile harness racing
- Championship golf courses
- Hummel Planetarium & numerous museums
- Lexington Center performances: Ballet, Broadway Live Theatre, concerts, etc.

Today

At Toyota Motor Manufacturing, Kentucky, Inc., (TMMK), Cooperative Education is an integral part of our culture. TMMK Co-op students will:

- Work in a state-of-the-art facility
- Contribute to the manufacturing of world-class vehicles
- Gain hands-on experience
- Participate in a team-based culture, driven by continuous improvement and respect for the individual
- Learn the Toyota Production System

Projects may include:

- Building in Best-in-Class quality
- Working with suppliers to improve quality
- Improving machine or process efficiency
- Re-designing parts or components for improved manufacturability

Tomorrow

Toyota Motor Manufacturing, Kentucky, Inc. is Toyota's largest manufacturing facility in North America. TMMK is committed to ensuring our operations and business practices contribute to the quality of life at TMMK and the surrounding community.

- Active community involvement programs, such as the Volunteers in Place (VIP)
- Earth Care Policy
- Zero Landfill Program
- Usage of manufacturing technology and systems that are environmentally friendly

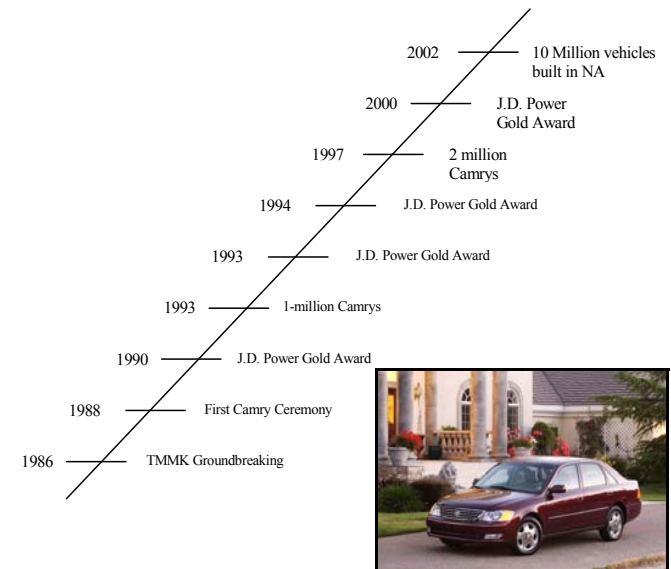

A successful co-op student at TMMK will acquire skills such as:

- Flexibility to manage multiple projects
- Effective communication skills
- Confident presentation skills
- Organizational skills
- Toyota Problem Solving techniques
- Effective team building skills
- Strong work ethic

Toyota

TMMK is the first wholly owned Toyota manufacturing facility in the U.S. From the first Camry produced in 1988 to our recent Solara launch, we do more than manufacture the world's finest automobiles: We develop high-performing team members. While our achievements and awards are impressive, we take great pride in the professionals who comprise our team.
